

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

This chapter presents the budget estimates and program justifications for the Department of Housing and Urban Development (HUD). HUD's core mission is to increase homeownership, support community development, and increase access to affordable housing free from discrimination. The 2006 Budget for HUD reflects the continuation of a multi-year comprehensive reform effort that will enhance the effectiveness of programs, reduce high unobligated and obligated balances, and return HUD to its core mission. Congress has provided significant increases in several HUD programs over the past several years.

The Department continues to emphasize expanding homeownership opportunities for all. Toward that goal, two new programs are being proposed for 2006 within the Federal Housing Administration (FHA). First, FHA will introduce a 100 percent financing option for families who have good credit histories, but lack the savings needed for the downpayment on a home. It is anticipated that this will assist over 200,000 first-time homebuyers in the first year. The second program will be directed toward families who have impaired credit histories and would normally be served only by the sub-prime market. For these families, FHA will offer insurance at a modestly higher initial premium, but subsequently reduce the premium over time as the families make timely mortgage payments. It is anticipated that this initiative will assist almost 60,000 first-time homebuyers in the first year. Also, the HOME Investment Partnerships Program is increased by \$41 million. This increase reflects \$200 million for the American Dream Downpayment Initiative. The 2006 budget continues to propose an expanded Self-Help Homeownership Opportunity Program (SHOP) in an effort to accelerate home ownership by lower-income families.

The 2005 appropriation completes the shift of the Housing Choice Voucher program to a budget-based as opposed to a unit-based program. This shift was initiated by Congress in 2004 and will help in controlling the program's upward spiral in costs. Legislation will be proposed to provide Public Housing Agencies with substantial new flexibility to manage the voucher program in a way that controls costs and increases benefits to the two million families currently receiving assistance.

HUD continues to focus on combating homelessness and eliminating chronic homelessness with \$1.44 billion for Homeless Assistance overall, including up to \$200 million for a Samaritan initiative to provide supportive housing linked to services for chronically homeless persons. Homeless assistance also includes \$25 million for HUD's part in a three-agency faith-based Prisoner Reentry initiative.

Funding in the 2006 budget for the Fair Housing Assistance and Fair Housing Initiatives programs (FHAP and FHIP) will continue to strengthen the ability of public and private fair housing groups, and partnerships between them, to enforce the laws protecting all Americans against illegal housing discrimination. With the publication of the National Discrimination Study HUD now has the information necessary to improve enforcement, reduce discrimination, and address accessibility issues.

The Community Development Block Grant program is replaced in 2006, along with other federal programs for community and economic development, by a proposed unified grant to be administered by the Department of Commerce. HUD will continue to provide funds for Indian Community Development.

HUD is one of five Departments that are leading the Federal Government in tapping the potential of faith-based and community organizations to improve housing and help develop communities.

The 2006 budget includes \$119 million in lead hazard reduction grants to continue the 10-year program to eradicate lead hazards in housing.

In order to ensure the effective implementation of its programs, the Department's Office of Policy Development and Research (PD&R) will be provided with funds necessary to ensure timely provision of data, provide research and analysis of national housing and economic conditions, and measure the performance of programs, consistent with the Government Performance and Results Act of 1994.

The Department will continue the management reform effort initiated in 2001 and undertake further efforts in 2006 to refocus HUD on its core mission and key programs as part of a continuing series of planned reforms to improve program performance.

Tenant Based Rental Assistance. The 2005 Appropriations enacted several reforms to the funding structure of the Tenant-based Rental Assistance program (also known as the Housing Choice Voucher Program) but allows limited flexibility on the part of Public Housing Agencies (PHAs) to adjust to these changes. The Administration will submit a legislative proposal in 2005 that will expand the dollar-based approach adopted by Congress and include the necessary flexibility to run effective and efficient programs. These reforms will improve the delivery of rental and homeownership subsidies for low-income families in a fiscally responsible manner, thereby ensuring the long-term sustainability of the tenant-based voucher program. The proposal includes greater PHA discretion in meeting local housing objectives and provides for steady and predictable funding levels adjusted annually for inflation.

The proposed funding level restores reductions imposed by the 2005 pro-rations and adds funds to account for inflation.

The Housing Certificate Fund, until 2005, provided funding to both project-based and tenant-based components of the Section 8 program. Project-based Rental Assistance and Tenant-based Rental Assistance are now separately funded accounts, and the Housing Certificate Fund retains balances from previous years' appropriations and in 2006 includes a rescission of \$2.5 billion of those balances.

Project-based Rental Assistance. HUD subsidizes rents for approximately 1.3 million families in over 19,000 projects under the Section 8 project-based rent subsidy program. Unlike the tenant-based Section 8 program, subsidies in the project-based program are tied directly to the project. Tenants pay up to 30 percent of income toward the rent with HUD subsidizing the remainder. Rents are adjusted periodically subject to HUD guidelines and approval. The Section 8 project-based program provides essential assistance to maintain the stock of affordable housing for low-and moderate-income families and individuals, many of whom are elderly or disabled. Program activity includes the following:

Contract Renewals. Original Section 8 assistance contracts were entered into between HUD and project owners for periods of up to 40 years. As contract terms expire they are renewed on an annual funding cycle and additional renewal budget authority is required to maintain the housing stock.

Section 8 Amendments. A funding amendment to a Section 8 contract is required to maintain the project until its contract expiration date when actual costs incurred exceed the amount of budget authority originally set-aside for the project. These additional costs are proposed to be entirely funded in 2006 by utilizing excess balances remaining on expired Section 8 contracts that utilized less than anticipated resources in completing the contract. No new BA is requested in 2006 for Section 8 Amendment activity.

Contract Administrators. HUD utilizes Performance Based Contract Administrators (PBCAs) to administer and monitor the project-based portfolio. There are presently 53 PHAs

under contract to manage approximately 15,000 contracts with 775,000 units. An additional 4,000 contracts with 287,000 units are anticipated to be added to the PBCA inventory in 2006. Further, funding is requested under the Project Rental Assistance heading for PBCA administration of an estimated 3,772 non-Section 8 contracts with 125,499 units. These will include Rent Supplement and Rental Assistance Program (RAP) contracts, Project Rental Assistance Contracts (PRAC) and Project Assistance Contracts (PAC), and Section 236 contracts. Funding for 2006 is proposed to be derived by \$147.2 million of new budget authority.

Project-based Tenant Protection. Voucher assistance is provided to tenants who face dislocation as a result of actions taken by project owners or by HUD that are beyond their control. This occurs as a result of owners opting out of the program or being terminated by HUD. HUD's property disposition activities and prepayment activity under the Preservation program may also lead to Project-Based Tenant Protection requirements. For 2006 approximately \$112 million will be required to assist an estimated 16,026 families. These project-based requirements, which are met through voucher assistance, are funded under the Tenant-Based heading.

Working Capital Fund Transfer. A total of \$1.8 million is requested in 2006 to fund development of and modifications to technology systems that service or are related to the programs or activities under this heading.

The Moving-to-Work demonstration provides unprecedented autonomy and flexibility to a select group of high-performing public housing authorities (PHAs) in order to assess the potential impacts of Federal deregulation on resident households, housing developments, and local housing programs. Through waivers of requirements of the 1937 Housing Act, as amended, and related Federal regulations, participating PHAs can combine Federal funding allocated for public housing operating subsidy, capital subsidy, and Section 8 vouchers into a flexible housing assistance fund. PHAs may provide incentives to families that work, are seeking work, or are preparing for work, PHAs are also allowed to change administrative procedures and management policies so they can reallocate resources to better address local housing needs and priorities. No additional funding is being requested for this demonstration.

The Public Housing Capital Fund, a formula-driven program based on estimated need, is designed to respond to the capital and management improvement requirements of public housing.

Of the \$2.3 billion requested for the Public Housing Capital Fund, approximately \$2.25 billion is provided to cover annual accrual needs. Other uses include up to \$24 million to provide supportive services to public housing residents under the Resident Opportunities and Supportive Services (ROSS) program, up to \$17 million for emergencies or disasters, up to \$11 million for technical assistance, no less than \$13.2 million for the Working Capital Fund and up to \$8.8 million for administrative and judicial receiverships.

Operating subsidies are provided to public housing authorities (PHAs) to assist in funding the operation and maintenance expenses of public housing units in accordance with Section 9(e) of the United States Housing Act of 1937, as amended.

The following tables display the sources of housing authorities' expected revenue and expenditures by category. The distribution is based on historical data reported by housing authorities to HUD on the Statement of Operating Receipts and Expenditures.

Sources of Housing Authorities' Operating Revenue (in millions of dollars)

Category	Annual income	Percent of total
Operating Subsidies	\$3,407	55%
Dwelling Rental	2,429	40%
Investment	66	1%
Other Income	232	4%
Total, Operating Revenue	6,134	100%

Operating Subsidies.—Represent HUD's contributions to a housing authority's operating budget. Under the current formula-based approach, HUD sets a formula-determined allowable expense level (AEL) for each PHA and separately computes utility and audit costs. The PHA's dwelling rental income is also projected and the subsidy is the difference between the projected AEL, utility, and audit expenses and projected dwelling rental income. AEL is not based on actual cost data from PHAs. HUD is currently working with PHAs on a new operating subsidy formula based on the previously congressionally sanctioned cost study conducted by the Harvard Graduate School of Design.

PUBLIC HOUSING OPERATING FUND—Continued

HUD remains committed to the principle and practices of real estate asset-based management and will at sometime in the near future present a plan for implementation.

Dwelling Rental.—Income derived from tenants' rents.

Investment Income.—Income from interest earned on general fund investments.

Other Income.—Includes income from other sources such as renting rooftop space for signs or broadcasting and from operating services for tenants, such as laundromats or day care centers.

Housing Authorities' Operating Expenditures (in millions of dollars)

Category	Annual expenditures	Percent of total
Utilities	\$1,334	22%
Administration	1,728	28%
General Operating Expenses	533	9%
Maintenance	2,216	36%
Tenant Services	152	2%
Protective Services	165	3%

Total, Operating Expenses*/	6,134	100%

* Excludes Voluntary Graduation Bonuses.

Utilities.—Includes water, sewer, electricity, gas, and fuel.

Administration.—Includes administrative salaries, legal expenses, staff training, travel, accounting fees, auditing fees, sundry, and outside management costs.

General Operating Expenses.—Includes insurance, payments made to local governments in lieu of taxes, terminal leave payments, employees benefit contributions, collection losses, interest on administrative and sundry notes, and other general expenses.

Ordinary Maintenance and Operations.—Consists of expenses for labor, materials, contracts and garbage fees associated with the day-to-day operation of the public housing authority.

Tenant Services.—Cover salaries, recreation, publication, contract costs, training, and other expenses.

Protective Services.—Includes expenses for labor, materials, and contract costs.

Capital Expenditures.—Includes extraordinary maintenance, casualty losses, and property betterments (e.g. roofs and furnaces).

Operating reserves.—Provides working capital funds and is a reserve for emergencies.

Voluntary Graduation Bonus.—This proposal provides up to \$10 million in bonus funds for public housing authorities that move program participants away from dependency on public housing assistance programs within the current regulatory and statutory constraints. Awards would be made to PHAs that exceeded a baseline number of families who have exited public and assisted housing. Baselines would be established for housing authorities considering various factors including size of the program.

The Public Housing Drug Elimination Grants program was terminated in the 2002 Budget. The program was found to have limited impact; current regulatory tools, such as tenant screening and eviction, are effective in reducing drug-related crime in public housing; and finally, fighting crime and drugs is not directly related to HUD's core mission—it is the mission of federal law enforcement and other agencies whose programs help combat illegal drugs and crime in public housing communities. PHAs can supplement other public housing security efforts using operating funds if they choose.

Title I of the Native American Housing Assistance and Self-Determination Act (NAHASDA) of 1996 (P.L. 104-330) authorized the Native American Housing Block Grant program. This program provides an allocation of funds on a formula basis to Indian tribes and their tribally designated housing entities to help them address housing needs within their communities.

The Native American Housing Block Grant program includes a guaranteed loan provision (Title VI). A guarantee level of \$37.9 million is proposed for this loan guarantee program for 2006. The subsidy rate for this program is set at 12.26 percent with a federal guarantee of 95 percent. A primary goal of the Title VI program is to encourage private lenders to provide financing in Indian country. Therefore, the program provides for the federal guarantee of notes or other obligations issued by Indian tribes or tribally designated housing entities for the purpose of financing affordable housing activities described in section 202 of the Act.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the loan guarantees committed in 1998 and beyond (including modifications of guarantees that resulted from obligations in any given year), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

The 2006 Budget allocates \$58 million to Indian tribes as authorized by Section 106(a)(1) of the Housing and Community Development Act of 1974. Since its inception, funds made available to Native American communities have supported a wide variety of community development activities, predominantly, but not exclusively, community facilities, infrastructure and buildings to help meet the basic needs of low and moderate income community members. This program has helped to finance those public facilities needed to maintain or establish community viability. While it has had a significant impact on many Native American communities throughout the Nation, basic community development needs throughout Indian Country remain substantial.

The Hawaiian Homelands Homeownership Act of 2000 (P.L. 106-568) amended the Native American Housing Assistance and Self-Determination Act of 1996 by adding Title VIII, which authorized the Native Hawaiian Housing Block Grant program. This program provides an allocation of funds to assist and promote affordable housing activities to develop, maintain and operate affordable housing for eligible low-income Native Hawaiian families.

It authorizes annual grants to the Department of Hawaiian Home Lands (DHHL) for housing and housing-related assistance, pursuant to an annual housing plan, within the area in which DHHL is authorized to provide that assistance. DHHL uses performance measures and benchmarks that are based on the needs and priorities established in its five- and one-year housing plans.

The Low-Rent Public Housing Loan Fund provides direct Federal loans to fund remaining Public Housing Agency and Indian Housing Authority construction, acquisition, and modernization activities reserved under the Annual Contributions appropriation through 1986. These loans are made by borrowing from the Treasury. Under legislation enacted during 1986 (Public Law 99-272), amounts borrowed from the Treasury are forgiven at the end of each fiscal year and the loans to PHAs/IHAs are forgiven as construction, acquisition, and modernization activities are completed. Under the provisions of this legislation, \$30 million borrowed from the Treasury was forgiven in 2004, \$30 million will be borrowed from the Treasury and forgiven in 2005, and an estimated \$30 million will be borrowed from the Treasury and forgiven in 2006.

Since 1987, new reservations of capital funds for construction, acquisition, and modernization activities have been provided directly from the Public Housing Capital Fund appropriations.

The Housing Opportunities for Persons with AIDS program provides States and localities with resources and incentives to devise long-term comprehensive strategies for meeting the housing needs of persons with HIV/AIDS and their families.

Up to \$2.4 million is used for technical assistance to grantees and project sponsors to strengthen management of programs and ensure responsiveness in meeting client needs. States and metropolitan areas receive 90 percent of the remaining funds by formula based on the number of cases of AIDS and, for metropolitan areas, the incidence of AIDS in that area. The final 10 percent is awarded competitively to States, local governments, and private nonprofit entities, including faith-based organizations, for projects of national significance with priority for renewal of the projects providing permanent supportive housing. Awards are also made to States and local governments for projects in jurisdictions which do not qualify for a formula allocation. The requested funding for 2006 will support approximately 67,000 housing units for persons with HIV/AIDS and their families.

The 2006 Budget proposes to consolidate the Community Development Block Grant (CDBG) program, and other set-asides within the Community Development Fund, into a new economic and community development program to be administered by the Department of Commerce. The new program would be designed to achieve greater results and focus on communities most in need of assistance.

Some of the set-asides formerly funded under the Community Development Fund will remain at HUD. The Self-Help Homeownership Opportunity program (SHOP) is proposed for funding at \$30 million as a separate program and an increase of \$5 million reflecting the success of this program and its standing as a Presidential initiative. Further, the budget proposes \$57.8 million for the Indian Community Development Block Grant program that will be funded as a set-aside within the Native American Housing Block Grant program and more fully integrate HUD's overall effort in this area. The Native Hawaiian Housing Block Grant program is proposed for funding at \$9 million as a separate program within Public and Indian Housing. The budget also proposes \$29 million within the Research and Technology Account for University Programs that have been and will continue to be administered by the Office of Policy Development and Research.

The 2006 Budget also proposes to transfer the Youthbuild program from HUD to the Department of Labor, as recommended by the White House Task Force on Disadvantaged Youth, to allow for greater coordination of the program with Job Corps and other employment and training programs. The 2006 Budget includes \$58.9 million in funding for this program. Youthbuild provides grants to local organizations to provide education and training to disadvantaged youth age 16-24. In addition to participating in classroom training, youth learn construction skills by helping to build affordable housing.

All other Community Development Fund set-asides would be consolidated into the new Commerce program.

The 2006 Budget proposes to consolidate grant funding for this program into a new economic and community development program to be administered by the Department of Commerce. The Empowerment Zone (EZ) initiative helps revitalize city neighborhoods by attracting business development and providing employment opportunities to residents of empowerment zones. Empowerment Zone principles include a strategic vision for change, a community-based partnership, providing economic opportunity and sustainable community development.

The Community Renewal and Tax Relief Act of 2000 (P.L. 106-554) authorized the designation of a third round of 7 urban and 2 rural empowerment zones and 40 competitively selected Renewal Communities administered by HUD.

The HOME Investment Partnerships program is authorized by the National Affordable Housing Act (P.L. 101-625). This program provides assistance to States and units of local government, through formula allocation, expanding the supply and affordability of housing. Eligible activities include acquisition, rehabilitation, and new construction of housing and tenant-based rental assistance. The 2006 request will result in the production of 82,420 units of affordable housing through new construction, rehabilitation, or acquisition. In addition, tenant-based rental assistance will be provided for 11,339 units.

The \$200 million American Dream Down Payment Initiative will help expand homeownership opportunities to 40,000 low-income first-time homebuyers and also support expansion of minority homeownership.

The HOME request also includes \$10 million for technical assistance.

The 2006 Budget proposes to fund the Self-Help Homeownership Opportunity Program (SHOP) in a separate account. Funding of \$30 million is provided for acquisition and preparation of land to assist the efforts of national and regional consortia. SHOP funds assist low-income homebuyers willing to contribute "sweat equity" toward the construction of their house. The funds will increase nonprofit organizations' ability to leverage funds from other sources and produce at least 1,500 new homeownership units. SHOP was previously funded as a set-aside within the Community Development Fund.

The Homeless Assistance Grants account funds the Shelter Plus Care, Supportive Housing, Emergency Shelter Grants, and Section 8 Moderate Rehabilitation Single Room Occupancy programs. These funds will enable localities to shape and implement comprehensive, flexible, coordinated approaches to address the multiple issues of homelessness. Many communities have made great strides in creating comprehensive approaches to ending chronic homelessness through the development of State Interagency Councils and local ten-year plans. Requested funding will be available for a wide range of activities to assist homeless persons and prevent future homelessness, and will support the Department's effort to end chronic homelessness within a decade.

A major emphasis will be placed on permanent housing by requiring 30 percent of funds to be used for permanent housing.

The Administration will propose legislation to combine HUD's three competitive programs—Shelter Plus Care, Supportive Housing, and Section 8 Moderate Rehabilitation Single Room Occupancy into a single program with enough flexibility to better meet community needs. The Department continues to pursue expanded interagency efforts to meet the needs of the homeless. The new consolidated program will incorporate up to \$200 million for the Samaritan Housing Initiative which will specifically address the supportive housing needs of chronically homeless individuals.

Funding is also requested for technical assistance to provide needed assistance to grantees to resolve problems that hinder successful project completion and implementation, and for homeless management information systems (HMIS) support, including the continuing operation of tracking systems required by House Report 105-610.

Funding of \$25 million is included for a four year Prisoner Re-Entry Initiative, involving the Departments of Justice, Labor, and Housing and Urban Development, to help individuals exiting prison make a successful transition to community life and long-term employment. Upon enactment, these funds will be transferred to the Department of Labor.

The 2006 Budget proposes to consolidate the Rural Housing and Economic Development program into a new economic and community development program to be administered by the Department of Commerce. The new program would be designed to achieve greater results and focus on communities most in need of assistance. A 2006 PART assessment rated this program as “ineffective.”

Shelter Plus Care provides rental assistance that, when combined with social services, supplies supportive housing for homeless people with disabilities and their families. Homeless people with disabilities often need more than shelter to live independently, such as medical care or other social services. Shelter Plus Care provides for a variety of housing choices such as group homes or individual units, coupled with a range of supportive services (which are funded by other sources). Grantees must match the rental assistance with supportive services that are at least equal in value to the amount of HUD's rental assistance. The Shelter Plus Care renewal funding renews contracts on a one-year basis and provides funding to amend contracts that were previously extended but which will run out of funding. The 2002 VA HUD Appropriations Act (P.L. 107-73) provided funding for Shelter Plus Care in the Homeless Assistance Grants account. Shelter Plus Care Renewals are funded in the Homeless Assistance Grants account in 2006. The 2005 Appropriations Act transferred all remaining balances in this account to the Homeless Assistance Grant account where Shelter Plus Care renewals have been funded since 2003.

Guaranteed loans.—The Community Development Loan Guarantees program has provided a mechanism for the Federal guarantee of private loans. An accompanying liquidating account shows activity for Federal Financing Bank (FFB) direct loan activity, obligated prior to July 1, 1986. The following is a status of privately financed guaranteed loan commitments made prior to 1992. No funding is requested for new section 108 loans in 2006.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond (including modifications of loan guarantees that resulted from commitments in any year). The amounts in this account are a means of financing and are not included in the budget totals. As required by the Federal Credit Reform Act of 1990, no administrative expenses can be recorded in the financing account.

As required by the Federal Credit Reform Act of 1990, this account records all cash flows to and from the Government resulting from Federal Financing Bank (FFB) direct loans for which loan guarantees were committed prior to 1992. This account is shown on a cash basis.

Guaranteed loans.—Guaranteed loan assistance under the Community Development Loan Guarantees program was provided to eligible communities to finance economic development activities, housing rehabilitation, development or expansion of public facilities, acquisition of real property, rehabilitation of publicly owned real property, and certain related expenses. In the past, the FFB financed these guaranteed loans. The Consolidated Omnibus Budget Reconciliation Act of 1985 required private financing of all loan guarantees committed after July 1, 1986. FFB will continue disbursing loans for commitments approved prior to July 1, 1986. The activity shown in the above account reflects privately financed guaranteed loans for which commitments were made prior to 1992.

and tenants, including home purchase, financial management, and rental counseling. This program has been funded through a set-aside under the HOME program appropriation for the past several years. However, in 2006, it is being proposed as a stand alone account.

The Housing Counseling Assistance Program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low-to moderate-income renters and the homeless. The primary objectives of the program are to expand homeownership opportunities, improve access to affordable housing and aid in HUD's commitment to bridging the gap of homeownership of minorities and other underserved groups in comparison to the National homeownership rate.

OTHER ASSISTED HOUSING PROGRAMS

RENTAL HOUSING ASSISTANCE

The Other Assisted Housing Account contains the programs listed below:

Rent supplement.—Rent supplement assistance payments will continue to be made on behalf of qualified low-income tenants in approximately 17,290 units which have not converted to section 8.

Section 235.—The Housing and Urban-Rural Recovery Act of 1983 (Public Law 98-181) authorized a restructured section 235 (Homeownership Assistance) program based on a 10-year interest reduction subsidy. This replaced earlier versions of the program, the original and the revised versions. All were below interest rate mortgages for single family homes.

Section 236.—The Housing and Urban Development Act of 1968, as amended, authorizes the section 236 Rental Housing Assistance Program which subsidizes the monthly mortgage payment that an owner of a rental or cooperative project is required to make. This interest subsidy reduces rents for lower income tenants.

The table below reflects the consolidated outlay total for: the Housing Certificate Fund; Tenant-Based Rental Assistance; Project-Based Rental Assistance; the Public Housing Capital Fund; and the Other Assisted Housing account.

In addition, grants have been devoted to counseling and training of residents, and other activities intended to help them become economically self-sufficient homeowners. No funding is being requested for 2006. This schedule reflects the liquidation of prior year balances.

The Housing and Urban Development Act of 1968 authorized the Secretary to establish a revolving fund into which rental collections in excess of the established basic rents for units in section 236 subsidized projects would be deposited.

The Housing and Community Development Amendment of 1978 authorized the Secretary, subject to approval in appropriation acts, to transfer excess rent collections received after 1978 to the Troubled Projects Operating Subsidy program, renamed the Flexible Subsidy Fund. Prior to that time, collections were used for paying tax and utility increases in section 236 projects. The Housing and Community Development Act of 1980 amended the 1978 Act by authorizing the transfer of excess rent collections regardless of when collected. This Budget proposes that the resources from the Rental Housing Assistance Fund continue to be transferred to the Flexible Subsidy Fund, with the exception of amounts required to make refunds of excess income remittances as authorized by Public Law 106-569.

The Flexible Subsidy Fund assisted financially troubled subsidized projects under certain FHA authorities. The subsidies were intended to prevent potential losses to the FHA fund resulting from project insolvency and to preserve these projects as a viable source of housing for low and moderate-income tenants. Priority was given to projects with Federal insurance-in-force and then to those with mortgages that had been assigned to the Department of Housing and Urban Development.

The Federal Housing Administration (FHA) provides mortgage insurance to encourage lenders to make credit available to expand homeownership and to predominantly serve borrowers that the conventional market does not adequately provide for including: first-time homebuyers; minorities; lower-income families; and, residents of underserved areas (central cities and rural areas).

As required by the Federal Credit Reform Act of 1990, this account records administrative expenses for this program, as well as the subsidy costs, if any, associated with the loan guarantees committed in 1992 and thereafter. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.

In 2006, FHA is requesting an aggregate limitation of \$185 billion on loan guarantees and is proposing two new mortgage programs that reduce the biggest barriers to homeownership—the down payment and impaired credit. The Zero Downpayment mortgage allows first-time buyers with a strong credit record to finance 100 percent of the downpayment and closing costs. For borrowers with limited or weak credit histories, Payment Incentives initially charges a higher insurance premium, but reduces the borrower's premiums once they have established a history of regular payments, thereby demonstrating their creditworthiness.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from direct loans obligated in 1992 and thereafter (including modifications of direct loans that resulted from obligations in any year). The amounts in this account are a means of financing and are not included in the budget totals.

The \$50 million in 2006 direct loan limitation in the MMI Fund would permit the Department to use Purchase Money Mortgages (PMMs) to help finance the sale of acquired single family properties. HUD would extend credit for these single-family homes to community nonprofit organizations or local government entities who would be expected to sell the properties to low- and moderate-income buyers. The use of PMMs provides a tool for State and local nonprofit organizations to use in revitalizing communities, and creates enhanced homeownership opportunities for low- and moderate-income families.

In 2002, a new Capital Reserve account was established for the Mutual Mortgage Insurance Fund. Financial reserves, including securities, of the MMI Fund were transferred from the liquidating account to the new Capital Reserve account. In 2003, this new account started earning interest on Treasury investments, collecting negative subsidy and downward reestimates from the Financing account, and paying upward reestimates. The Liquidating account will now only reflect cashflows related to pre-1992 books of business.

The Federal Housing Administration Fund currently consists of four separate insurance funds.

In order to present more clearly the operations of the various funds, FHA's budget transactions are separated into two major business segments. The basic single-family insurance programs in the Mutual Mortgage Insurance (MMI) fund and the multifamily Cooperative Management Housing Insurance (CMHI) funds form one segment. All other multifamily and other specialized insurance programs in the General Insurance and Special Risk Insurance funds (GI/SRI) form the other segment.

The Federal Credit Reform Act of 1990 creates a structure of three accounts for existing credit program. For each of the FHA business segments (MMI/CMHI and GI/SRI) there is a liquidating account, which records the revenues and costs associated with loan insurance committed prior to October 1, 1991, a financing account which records the revenues and costs associated with commitments to insure loans made after September 30, 1991, and, a program account which records the transactions associated with the program subsidy costs, if any, and the costs of administering the program.

This liquidating account records, for this program, all cash flows to and from the Government resulting from MMI/CMHI loans insured prior to 1992 and is shown on a cash basis. All new activity in this program in 1992 and thereafter (including modifications of loans insured in any year) is recorded in the corresponding program (86-0183) and financing (86-4587 and 86-4242) accounts.

In 2002, a new MMI capital reserve account was established to maintain reserves required by statute that were previously deposited in the liquidating account.

As required by the Federal Credit Reform Act of 1990, this account records, for the single family, multifamily, hospital, and Title I insurance programs of FHA's General Insurance and Special Risk Insurance Funds, the subsidy costs associated with the loan guarantees committed or direct loans

obligated in 1992 and thereafter (including modifications of loan guarantees or direct loans that resulted from obligations or commitments in any year), as well as administrative expenses of these programs. The subsidy amounts are estimated on a present value basis; the administrative expenses are accounted for on a cash basis.

For 2006, the annual premium for mortgage guarantees under the tax credit and apartment refinance risk categories will be reduced to 45 basis points, matching the rate for the Sec. 221(d)(4) new construction/substantial rehabilitation apartment development program.

The General Insurance fund provides for a large number of specialized mortgage insurance programs, including the insurance of loans for property improvements as well as for cooperatives, condominiums, nursing homes, rental housing and nonprofit hospitals.

The Special Risk Insurance fund provides insurance on behalf of mortgagors who otherwise would not be eligible for mortgage insurance. In addition, the fund provides insurance on mortgages covering experimental housing where strict adherence to State or local building regulations was not observed.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, all cash flows to and from the Government resulting from loan guarantees committed and direct loans obligated prior to 1992. This account is shown on a cash basis. New insurance and direct loan activity in 1992 and thereafter in the GI/SRI programs is recorded in corresponding program (86-0200) and financing (86-4077 and 86-4105) accounts.

Restructuring authorities under the Multifamily Assisted Housing Reform and Affordability Act of 1997 expire at the end of fiscal year 2006 except for binding commitments entered into prior to October 1, 2006.

Financial Condition.—The following tables reflect the revenues, expenses, and financial condition of the GI/SRI Liquidating Account based on Generally Accepted Accounting Principles.

Under several statutory provisions, HUD has the authority to remedy problems with the operation and repair of FHA-insured multi-family properties. These authorities allow the use of rehabilitation grants and property sales at prices below their market value for properties in mortgage default. These authorities impose costs on the FHA insurance fund and, as there is little restriction to their use, represent an open-ended liability. This proposal would make several FHA multi-family authorities subject to appropriations. By making their use subject to appropriations, the Administration and Congress will be able to set the level of activity for these authorities and have an opportunity to better control their use. The 2006 Budget lowers spending under these authorities (relative to the current law baseline level) and therefore creates savings.

Note.—Amounts for direct loan obligations reflect reservations of section 202 funds. Loan obligations shown under the program and financing schedule reflect loans that have reached the initial closing stage of processing.

The Housing for the Elderly or Handicapped Fund was established pursuant to section 202 of the Housing Act of 1959, as amended. The fund provided direct loans to nonprofit organizations building and managing housing projects for lower income persons who are elderly or disabled.

Projects included an assured range of necessary services for the occupants of such projects. In addition, the section 8 lower income housing assistance payments program has been used in conjunction with the section 202 program. Applications under the two programs have been processed simultaneously.

The data included in these schedules represent direct loan activities funded under the Housing for the Elderly or Handicapped Loan Fund. Further, activities in support of the needs of the elderly and disabled have been carried out under a grant program funded in the 1991 Appropriations Act (P.L. 101-507) and authorized in the National Affordable Housing Act (P.L. 101-625).

After April 1, 1992, all projects for which there were administrative reservations converted to the capital advance assistance program.

The program and financing schedule for this account summarizes the Federal government's obligations for this loan program.

Financing.—Repayments and interest income from loans continue to be available to pay for commitments of the fund.

The National Manufactured Housing Construction and Safety Standards Act of 1974, as amended by the Manufactured Housing Improvement Act of 2000, authorizes development and enforcement of appropriate standards for the construction, design, and performance of manufactured homes to assure their quality, durability, affordability, and safety. All manufactured homes produced since the standards took effect on June 15, 1976 must comply with Federal construction and safety standards. The States are actively encouraged to participate in the program under compliance plans approved by HUD. New program requirements mandated by the Manufactured Housing Improvement Act of 2000 include procurement of an Administering Organization, formation of a Consensus Committee to recommend revisions to and interpretations of the manufactured housing standards, development and implementation of standards for installation of manufactured housing, and development and implementation of a dispute resolution program.

Fees are charged to the manufacturers for each manufactured home transportable section produced and will be used to fund the costs of all authorized activities necessary for the consensus committee, HUD, and its agents to carry out all aspects of the manufactured housing legislation. Fees are deposited in a trust fund administered by the Department, and a portion of the fee receipts are transferred to the salaries and expenses account to defray the direct administrative expenses of the program. In 2004, 230,255 transportable sections were produced, for a total of 127,931 manufactured homes.

The Manufactured Housing Improvement Act of 2000 created a Manufactured Housing Fees Trust Fund and made spending subject to appropriations. This account provides spending for activities formerly funded under Manufactured Home Inspection and Monitoring.

This account also presents activities formerly shown under the Interstate Land Sales account.

The Interstate Land Sales Full Disclosure Act provides protection to the public with respect to purchases or leases of subdivision lots. Statements of record must be filed with the Secretary before subdivisions with 100 or more lots may be sold in interstate commerce, except when the subdivision is eligible for exemption.

The Secretary is authorized to charge a fee, to be paid by the developer when filing a statement of record. The fee receipts are permanently appropriated and have helped finance a portion of the direct administrative expenses incurred in program operations.

An estimated 600 filings in 2006 will result in \$350,000 in fees.

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

Federal Funds

The Housing and Urban Development Act of 1968 authorized the Government National Mortgage Association (Ginnie Mae) to guarantee the timely payment of principal and interest on privately issued securities that are backed by pools of FHA, Veterans Affairs (VA) and Rural Housing Service mortgages. The Ginnie Mae guarantee gives lenders access to the capital markets for funds to originate new loans. New

FHA and VA loans are currently pooled into Ginnie Mae securities.

The Budget proposes two new FHA mortgage insurance programs. These programs will increase demand for FHA mortgages and thus increase the volume of Ginnie Mae guarantees of securities backed by FHA mortgages.

Financing.—Ginnie Mae issuers are assessed commitment, guarantee and other fees to cover costs incurred by Ginnie Mae and to fund a reserve against possible future payments under the guarantee.

The Housing and Urban Development Act of 1970 directs the Secretary to undertake programs of research, studies, testing, and demonstrations related to the HUD mission. These functions are carried out internally and through contracts with industry, nonprofit research organizations, and educational institutions, and through agreements with State and local governments and other Federal agencies.

In 2006, the research program includes funds for program evaluations and for work related to the removal of barriers to affordable housing. National surveys will continue in 2005. Funds are not requested for the Partnership for Advancing Technology (PATH) program in 2006. Research and evaluation activities will also support the Department in carrying out its responsibilities under the Government Performance and Results Act.

In 2006 the University Partnership Program grants will be funded from this account. These grants, pursuant to Section 107 of the Housing and Community Development Act of 1974, were funded under the Community Development Block Grant account. These programs were and will continue

to be administered by the Office of Policy Development and Research. The University Partnership Programs provide grants to colleges and universities to assist institutions of higher education in forming partnerships with the communities in which they are located to undertake a range of activities that foster and achieve neighborhood development and revitalization. Funds also support a work study program for disadvantaged and minority students in graduate level community building curricula. The University Partnership Programs include the following: Alaska Native and Native Hawaiian Serving Institutions program, Tribal Colleges and University program, Historically Black Colleges and Universities program, Community Outreach Partnerships program, Hispanic Serving Institutions program and the Community Development Work Study Program.

The Budget proposes an appropriation of \$38.8 million in 2006 to fund fair housing activities that support efforts to end housing discrimination. Of the amount requested, \$22.7 million is for the Fair Housing Assistance Program and \$16.1 million is for the Fair Housing Initiatives Program.

The Fair Housing Assistance Program (FHAP), authorized by title VIII of the Civil Rights Act of 1968 as amended, provides funding to State and local agencies to assure prompt and effective processing of Title VIII (Civil Rights Act of 1968) complaints.

The funding requested for FHAP will support fair housing enforcement by increasing funding to support additional State and local fair housing organizations to meet the needs of currently underserved populations. It will also address the persistent high rate of discrimination against minorities as identified by the 2000 Housing Discrimination Study. It is estimated that the number of new State and local agencies with laws equivalent to the Fair Housing Act will increase to 104 in 2006 from 100 in 2005.

The Fair Housing Initiatives Program (FHIP), authorized by the Housing and Community Development Act of 1987, as amended by the Housing and Community Development Act of 1992, provides support to public and private organizations for the purpose of eliminating or preventing discrimination in housing and for enhancing fair housing opportunities. FHIP provides funding for projects that inform and educate the public, including housing providers, on the rights and obligations of the Fair Housing Act and about substantially equivalent state and local fair housing laws.

Title X of the Housing and Community Development Act of 1992 (Public Law 102-550), known as the Residential Lead-Based Paint Hazard Reduction Act, authorized the Secretary to establish the Lead-Based Paint Hazard Control Grant Program. The primary purpose of the program is to reduce the exposure of young children to lead-based paint hazards in their homes.

The program is a major part of a 10-year strategy to eliminate lead poisoning in children. The 2006 Budget includes \$93 million for HUD's Lead Hazard Control Program competitive grants and \$8.8 million for operation LEAP. The Technical Support Program and the Healthy Homes Initiative are also funded at \$8.8 million each. Operation LEAP funds will be used to leverage other private and public sector resources for the lead hazard control program.

The Lead Hazard Control Grant Program provides grants of \$1 million to \$2.5 million to State and local governments and Indian tribes for control of lead-based paint hazards in privately owned, low-income owner-occupied and rental housing. The grants are also designed to stimulate the development of a housing maintenance and rehabilitation workforce trained in lead-safe work practices and a certified hazard evaluation and control industry. In awarding grants, HUD promotes the use of new, low cost approaches to hazard control that can be replicated across the nation.

The Healthy Homes Initiative will enable the Department to assess and control housing-related hazards that contribute to childhood diseases and injuries. The initiative will demonstrate and evaluate methods for controlling two or more housing related diseases through a single intervention. A public education/outreach effort, that enables the public to act effectively to protect their children from exposure to hazards, will also be conducted.

The Office of Federal Housing Enterprise Oversight (OFHEO) was established in 1992 to regulate the financial safety and soundness of two housing Government-sponsored enterprises (GSEs)—Fannie Mae and Freddie Mac. OFHEO was authorized in the Federal Housing Enterprise Safety and Soundness Act of 1992. OFHEO is required to ensure that the GSEs meet capital standards, and to conduct onsite annual examinations at the GSEs for the purpose for ensuring their financial safety and soundness.

It is expected that all resources available to OFHEO would be transferred to a new strengthened housing GSE regulator that will be proposed in 2005. The Administration continues to support direct funding of these activities with mandatory assessments on Fannie Mae and Freddie Mac.
