

DEPARTMENT OF DEFENSE—MILITARY

MILITARY PERSONNEL

ACTIVE AND RESERVE FORCES

These appropriations finance the personnel costs of the active, reserve, and guard forces of the Army, Navy, Air Force, and Marine Corps. They include pay and allowances of officers, enlisted personnel, cadets and midshipmen, permanent change of station travel, inactive duty and active duty training, accruing retirement and health benefits, enlistment, reenlistment and affiliation bonuses, special and incentive pays, and other personnel costs. Over the past several years, significant pay increases, coupled with new requirements to accrue funds for future health benefits, have significantly increased the requirements of these appropriations.

Included in these accounts is funding for a 2.2 percent across-the-board pay raise. With this and other compensation increases, military salaries, defined by Regular Military Compensation, will average more than \$44,000 for enlisted personnel and \$86,000 for officers. Also included are the amounts required to implement the items contained in the Department of Defense's (DOD's) proposed 2007 Authorization Act, which will be submitted in support of the 2007 President's Budget. The table below summarizes these amounts:

The Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (P.L. 108-375) provided permanent, indefinite appropriations to finance the cost of accruing Tricare benefits of uniformed service members. These costs are included in the DoD discretionary total. The following summary table reflects both the 2006 and 2007 base military personnel appropriation requests and the additional amounts for Tricare accrual funded from permanent, indefinite authority. Total base 2007 military personnel requirements are \$110.849 billion.

The Reserve Officers' Training Corps (ROTC) program provides training for reserve and regular officer candidates who have enrolled in the course while attending a college at which an ROTC unit has been established. College graduates who satisfactorily complete the advanced course of the program are commissioned and may be ordered to active duty for a minimum of 3 years.

The Reserve Officers' Training Corps Vitalization Act of 1964, as amended, authorizes a limited number of scholarships for ROTC students on a competitive basis. Successful candidates for the scholarships generally serve a minimum period of 4 years on active duty upon graduation and appointment as a commissioned officer. A number of scholarship recipients will fulfill their entire obligation in the Reserve components.

The Armed Forces health professions scholarship program provides a source of active duty commissioned officers for the various health professions.

The numbers of commissioned officers graduated from these programs are summarized below:

OPERATION AND MAINTENANCE

These appropriations finance the cost of operating and maintaining the Armed Forces, including the Reserve components and related support activities of the Department of Defense, except military personnel pay, allowances and travel costs. Included are amounts for training and operation costs, pay of civilians, contract services for maintenance of equipment and facilities, fuel, supplies, and repair parts for weapons and equipment. Financial requirements are influenced by many factors, including the number of aircraft squadrons, Army and Marine Corps divisions, installations, military strength and deployments, rates of operational activity, and the quantity and complexity of major equipment (aircraft, ships, missiles, tanks, et cetera) in operation.

This account transfers funds, to operation and maintenance and military personnel appropriations, for Defense activities that purchase foreign currencies, to finance upward adjustments of recorded obligations due to foreign currency fluctuations above the budget rate. Transfers are made as needed to meet disbursement requirements in excess of funds otherwise available for obligation adjustment. Net gains resulting from favorable exchange rates are returned to this appropriation and are available for subsequent transfer when needed. The account is replenished through the utilization of a special transfer authority that allows the Department to withdraw unobligated balances from operation and maintenance and military personnel appropriations from prior years as long as the authorized limit of \$970 million is not exceeded at the time of the transfer.

The Defense Health Program (DHP) provides care to current and retired members of the Armed Forces, their family members, and other eligible beneficiaries. Beneficiaries may obtain care from the Military Department medical and dental facilities or through the civilian health care network under the TRICARE program.

The budget includes a proposal to allow the Department of Defense (DOD) to revise deductibles and charge annual enrollment fees under the TRICARE Standard/Extra option for non-Medicare eligible retirees. These changes will more closely align the TRICARE program's annual premiums and deductibles for non-Medicare eligibles retirees to typical employer sponsored health insurance plans. These changes should allow DOD to better manage and predict future health care costs.

Accrual accounting for Medicare eligible beneficiaries began in 2003 and the health care for these beneficiaries is funded from the Department of Defense Medicare-Eligible Retiree Health Care Fund. The DHP also manages Research and Development funds appropriated by Congress, which primarily supports medical information management systems development.

The DHP and Veterans Administration (VA) share the goal of improving the access to, and quality and cost effectiveness of, health care provided by the VA and DOD. To this end,

each Department contributes \$15 million a year for joint health care incentives.

Health care is provided in military facilities as follows:

	2005	2006	2007
Inpatient Facilities	70	70	70
Outpatient Clinics	409	409	409

The DHP is staffed by:

	Staff in thousands		
	2005	2006	2007
Civilian work years	43	44	46
Military personnel	90	88	86

The number of eligible beneficiaries of the Defense Health Program is estimated as follows:

The Defense Environmental Restoration Program provides for the identification, investigation, and cleanup of contamination resulting from past DOD activities. The Department has 23,317 sites that have a remedy in place or are response complete, leaving 5,495 active sites at military installations and 2,467 active sites at formerly used DOD properties. For these remaining active sites, DOD is engaged in either a study to determine the extent of the contamination or the actual clean-up of the contamination.

The Department's environmental restoration program is funded by five separate environmental restoration accounts, one for each military department, one for defense agencies and one for formerly used DOD properties. The first four accounts, Army, Navy, Air Force and defense-wide environ-

mental restoration accounts cover funding for active installations, and are shown separately from the Formerly Used Defense Sites (FUDS) program environmental restoration account, which funds environmental cleanup on properties no longer owned and/or used by the DOD. These five accounts include restoration activities ranging from inventory to preliminary assessment, then to investigation and clean-up of contamination, and finally to closeout of a site.

These appropriations finance the cost of developing effective Afghan Military and Police Forces that can take control of security operations within Afghanistan's borders, stabilize the country, and reduce the insurgency to a level that enables democracy to grow and US forces to return home.

Funding supports a broad spectrum of activities to include training individuals, advising and mentoring units, equipping individuals with uniforms, weapons, and body armor, equipping units with vehicles, communications gear, and crew served weapons, developing the logistics and maintenance support structure to sustain units, providing basing and facility infrastructure, and improving ministerial capacity to keep the forces operating after the U.S. departs.

PROCUREMENT

Appropriations in this title support the acquisition of aircraft, ships, combat vehicles, satellites and their launch vehicles, weapons and all capital equipment. Major systems in production typically are budgeted annually to maintain production continuity through the life of the acquisition program

and in several instances multi-year contracts are used to ensure stability of production and economies of scale. Initial spares and support as well as the modification of existing equipment are also funded. Resources presented under the Procurement title contribute primarily to achieving the Department's annual goals of assuring readiness and sustainability, transforming the force for new missions, and reforming processes and organizations. Performance targets in support of these goals contribute to the Department's efforts to mitigate force management and operational risk, future challenges risk, and institutional risk.

Procurement in support of the ground forces encompasses wheeled and tracked vehicles, rotary wing aircraft, ammunition and equipment procured to meet inventory requirements dictated by the force size and anticipated attrition requirements. Similarly, procurement in support of naval forces includes ships, equipment for the ships, aircraft, munitions, the Marine Corps ground element, and other equipment to sustain future naval operations. The Air Force programs support the broad range of missions and include aircraft, tactical missiles, ballistic missile weapons and associated surveillance and space assets keyed to the strategic deterrence mission, munitions and other mission support equipment.

Public Law 99-145 authorized an appropriation to the Chemical Agents and Munitions Destruction account to destroy the U.S. inventory of lethal chemical agents and munitions and related (non-stockpile) materiel thus avoiding future risks and costs associated with the continued storage of chemical warfare materiel. The program supports the chemical weapons convention initiatives to rid the world of chemical weapons.

This program, first authorized in Public Law 102-484 (the 1992 Authorization Act), is to encourage commercial firms to use idle government owned, contractor-operated Army ammunition manufacturing facilities to ensure a viable industrial base for the manufacture of ammunition.

As required by the Federal Credit Reform Act of 1990, this non-budgetary account records all cash flows to and from the Government resulting from loan guarantees committed in 1992 and beyond (including modifications of loan guarantees that resulted from commitments in any year). The amounts in this account are a means of financing and are not included in the budget totals.

RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Appropriations in this title support modernization through basic and applied research, fabrication of technology-demonstration devices, and development and testing of prototypes and full-scale preproduction hardware. This work is performed by contractors, government laboratories and facilities, universities and nonprofit organizations. Research and development programs are funded to cover annual needs. Resources presented under the RDT&E title contribute primarily to achieving the Department's annual goals of transforming the force for new missions and reforming processes and organizations.

Funds for each fiscal year are available for obligation for a two-year period beginning on the first day of that fiscal year.

The 2007 Budget provides for major technology and development efforts. These include science and technology programs, development of weapons systems and supporting systems, including missile defense, and support of test and evaluation programs and necessary infrastructure. The Department continues to emphasize technology efforts that ensure that the Nation will maintain a technological advantage over potential adversaries.

MILITARY CONSTRUCTION

The Military Construction programs are intended to provide facilities required as a result of new weapon systems entering the inventory, including aircraft and naval vessels, and other high priority initiatives. The program continues initiatives to improve living and working conditions, reduce operating costs, increase productivity, and conserve energy by upgrading or replacing facilities which have become functionally obsolete or can be made more efficient through relatively modest investments in improvements. Also included in this request are resources required to clean up and dispose of property consistent with the four closure rounds required by the Base Closure Acts of 1988 and 1990.

The budget plan for each appropriation is shown as a separate table immediately following the program and financing schedules for those appropriations that are available for obli-

gation for more than one year. In 2007 it presents, by budget activity, the value of the program requested for the life of the multiple-year appropriations, with comparable amounts in 2005 and 2006. Resources presented under the Military Construction title contribute primarily to achieving the Department's annual performance goals of assuring readiness and sustainability.

FAMILY HOUSING

These appropriations finance all costs associated with construction, improvements, operations, maintenance and leasing of all military family housing. In addition to quality of life enhancements, the program contains initiatives to reduce operating costs and conserve energy by upgrading or replacing facilities which can be made more efficient through relatively modest investments in improvements.

The Family Housing Improvement Fund (FHIF) was created to finance the use of innovative methods authorized in

the Housing Revitalization Act (HRA), Public Law 104–106, to meet the Department’s housing needs. The HRA authorizes the Department to use limited partnerships, make direct and guaranteed loans, and convey Department-owned property to stimulate the private sector to increase the availability of affordable, quality housing for military personnel. The Department’s goal is to increase its reliance on the private sector to provide quality housing for all military personnel much sooner than possible with traditional family housing programs at currently planned funding levels. The funds required to privatize military housing are transferred from the military departments’ housing accounts into the Family Housing Improvement Fund when procurement actions are finalized.

Resources presented under the Family Housing title contribute primarily to achieving the Department’s annual performance goals of assuring readiness and sustainability.

The National Defense Stockpile program is managed under the authority of the Strategic and Critical Materials Stockpiling Act. The purpose of the Stockpile is to decrease or preclude U.S. dependence on foreign sources for supplies of strategic and critical materials in times of national emergency. Since 1993, Congress has authorized the sale of over 99 percent of the inventory as excess to Department of Defense needs.

Revenues from the sales of excess commodities are either deposited into the National Defense Stockpile Transaction Fund to finance the National Defense Stockpile program or are transferred to the Treasury for specific congressionally mandated programs or to reduce the deficit.

The program provided insurance coverage for Ready Reservists who elected to participate and who were involuntarily ordered to active duty in excess of 30 days. The program became operational on October 1, 1996. The program was terminated on November 18, 1997, by the National Defense Authorization Act of 1998 (Public Law 105-85). Section 1175 of Title 10, United States Code, enacted by section 662 of the National Defense Authorization Act for Fiscal Years 1992 and 1993, Public Law 102-190, established the Voluntary Separation Incentive (VSI) Fund to help manage the ongoing military force drawdown. VSI provides annual payments to selected active-duty Service members with more than six but less than 20 years of service who leave the service voluntarily. The Section 1175(h)(3) provided that after December 31, 1992, all voluntary separation incentive payments shall be made from the fund. The fund is financed through actuarially-determined Government contributions from the Department of Defense personnel appropriations to cover the unfunded liability and the present value of future benefits for those separating and interest on the investments. The total present value costs of VSI benefit payments must have been deposited in the fund by the time authority to approve VSI benefits ended, December 31, 2001. Permanent authority to make these payments is contained in section 8044 of the 1997 Defense Appropriations Act.

[SEC. 8117. (a) FINDINGS.—The Senate makes the following findings:

(1) The Department of Defense Appropriations Act, 2004 (Public Law 108–87), the Department of Defense Appropriations Act, 2005 (Public Law 108–287), and the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief, 2005 (Public Law 109–13) each contain a sense of the Senate provision urging the President to provide in the annual budget requests of the President for a fiscal year under section 1105(a) of title 31, United States Code, an estimate of the cost of ongoing military operations in Iraq and Afghanistan in such fiscal year.

(2) The budget for fiscal year 2006 submitted to Congress by the President on February 7, 2005, requests no funds for fiscal year 2006 for ongoing military operations in Iraq or Afghanistan.

(3) According to the Congressional Research Service, there exists historical precedent for including the cost of ongoing military operations in the annual budget requests of the President following initial funding for such operations by emergency or supplemental appropriations Acts, including—

(A) funds for Operation Noble Eagle, beginning in the budget request of President George W. Bush for fiscal year 2005;

(B) funds for operations in Kosovo, beginning in the budget request of President George W. Bush for fiscal year 2001;

(C) funds for operations in Bosnia, beginning in the budget request of President Clinton for fiscal year 1997;

(D) funds for operations in Southwest Asia, beginning in the budget request of President Clinton for fiscal year 1997;

(E) funds for operations in Vietnam, beginning in the budget request of President Johnson for fiscal year 1966; and

(F) funds for World War II, beginning in the budget request of President Roosevelt for fiscal year 1943.

(4) In section 1024(b) of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief, 2005 (119 Stat. 252), the Senate requested that the President submit to Congress, not later than September 1, 2005, an amendment to the budget of the President for fiscal year 2006 setting forth detailed cost estimates for ongoing military operations overseas during such fiscal year.

(5) The President has yet to submit such an amendment.

(6) In February 2005, the Congressional Budget Office estimated that fiscal year 2006 cost of ongoing military operations in Iraq and Afghanistan could total \$85,000,000,000.

(b) **SENSE OF THE SENATE.—**It is the sense of the Senate that—

(1) any request for funds for a fiscal year after fiscal year 2006 for an ongoing military operation overseas, including operations in Afghanistan and Iraq, should be included in the annual budget of the President for such fiscal year as submitted to Congress under section 1105(a) of title 31, United States Code;

(2) the President should submit a budget request for fiscal year 2006 setting forth estimates for ongoing military operations overseas during such fiscal year; and

(3) any funds provided for a fiscal year for ongoing military operations overseas should be provided in appropriations Acts for such fiscal year through appropriations to specific accounts set forth in such appropriations Acts.]

(b) **SUPPORT FOR YOUTH ORGANIZATIONS.—**

(1) **DEFINITIONS.—**In this subsection—

(A) the term “Federal agency” means each department, agency, instrumentality, or other entity of the United States Government; and

(B) the term “youth organization”—

(i) means any organization that is designated by the President as an organization that is primarily intended to—

(I) serve individuals under the age of 21 years;

(II) provide training in citizenship, leadership, physical fitness, service to community, and teamwork; and

(III) promote the development of character and ethical and moral values; and

(ii) shall include—

- (I) the Boy Scouts of America;
- (II) the Girl Scouts of the United States of America;
- (III) the Boys Clubs of America;
- (IV) the Girls Clubs of America;
- (V) the Young Men's Christian Association;
- (VI) the Young Women's Christian Association;
- (VII) the Civil Air Patrol;
- (VIII) the United States Olympic Committee;
- (IX) the Special Olympics;
- (X) Campfire USA;
- (XI) the Young Marines;
- (XII) the Naval Sea Cadets Corps;
- (XIII) 4-H Clubs;
- (XIV) the Police Athletic League;
- (XV) Big Brothers—Big Sisters of America; and
- (XVI) National Guard Youth Challenge.

(2) IN GENERAL.—

(A) SUPPORT FOR YOUTH ORGANIZATIONS.—

(i) SUPPORT.—No Federal law (including any rule, regulation, directive, instruction, or order) shall be construed to limit any Federal agency from providing any form of support for a youth organization (including the Boy Scouts of America or any group officially affiliated with the Boy Scouts of America) that would result in that Federal agency providing less support to that youth organization (or any similar organization chartered under the chapter of title 36, United States Code, relating to that youth organization) than was provided during the preceding fiscal year. This clause shall be subject to the availability of appropriations.

(ii) YOUTH ORGANIZATIONS THAT CEASE TO EXIST.—Clause (i) shall not apply to any youth organization that ceases to exist.

(iii) WAIVERS.—The head of a Federal agency may waive the application of clause (i) to any youth organization with respect to each conviction or investigation described under subclause (I) or (II) for a period of not more than 2 fiscal years if—

(I) any senior officer (including any member of the board of directors) of the youth organization is convicted of a criminal offense relating to the official duties of that officer or the youth organization is convicted of a criminal offense; or

(II) the youth organization is the subject of a criminal investigation relating to fraudulent use or waste of Federal funds.

(B) TYPES OF SUPPORT.—Support described under this paragraph shall include—

- (i) holding meetings, camping events, or other activities on Federal property;
- (ii) hosting any official event of such organization;
- (iii) loaning equipment; and
- (iv) providing personnel services and logistical support.

(c) SUPPORT FOR SCOUT JAMBOREES.—

(1) FINDINGS.—Congress makes the following findings:

(A) Section 8 of article I of the Constitution of the United States commits exclusively to Congress the powers to raise and support armies, provide and maintain a Navy, and make rules for the government and regulation of the land and naval forces.

(B) Under those powers conferred by section 8 of article I of the Constitution of the United States to provide, support, and maintain the Armed Forces, it lies within the discretion of Congress to provide opportunities to train the Armed Forces.

(C) The primary purpose of the Armed Forces is to defend our national security and prepare for combat should the need arise.

(D) One of the most critical elements in defending the Nation and preparing for combat is training in conditions that simulate the preparation, logistics, and leadership required for defense and combat.

(E) Support for youth organization events simulates the preparation, logistics, and leadership required for defending our national security and preparing for combat.

(F) For example, Boy Scouts of America's National Scout Jamboree is a unique training event for the Armed Forces, as it requires the construction, maintenance, and disassembly of a "tent city" capable of supporting tens of thousands of people

for a week or longer. Camporees at the United States Military Academy for Girl Scouts and Boy Scouts provide similar training opportunities on a smaller scale.

(2) SUPPORT.—Section 2554 of title 10, United States Code, is amended by adding at the end the following:

"(i)(1) The Secretary of Defense shall provide at least the same level of support under this section for a national or world Boy Scout Jamboree as was provided under this section for the preceding national or world Boy Scout Jamboree.

"(2) The Secretary of Defense may waive paragraph (1), if the Secretary—

"(A) determines that providing the support subject to paragraph (1) would be detrimental to the national security of the United States; and

"(B) reports such a determination to the Congress in a timely manner, and before such support is not provided."

(d) EQUAL ACCESS FOR YOUTH ORGANIZATIONS.—Section 109 of the Housing and Community Development Act of 1974 (42 U.S.C. 5309) is amended—

(1) in the first sentence of subsection (b) by inserting "or (e)" after "subsection (a)"; and

(2) by adding at the end the following:

"(e) EQUAL ACCESS.—

"(1) DEFINITION.—In this subsection, the term 'youth organization' means any organization described under part B of subtitle II of title 36, United States Code, that is intended to serve individuals under the age of 21 years.

"(2) IN GENERAL.—No State or unit of general local government that has a designated open forum, limited public forum, or non-public forum and that is a recipient of assistance under this chapter shall deny equal access or a fair opportunity to meet to, or discriminate against, any youth organization, including the Boy Scouts of America or any group officially affiliated with the Boy Scouts of America, that wishes to conduct a meeting or otherwise participate in that designated open forum, limited public forum, or non-public forum.".]

[SEC. 8127. REGULATIONS TO CLARIFY GIFT ACCEPTANCE POLICY FOR SERVICE MEMBERS AND THEIR FAMILIES

(a) REGULATIONS.—The Secretary of Defense shall prescribe regulations to provide that, subject to such limitations as may be specified in such regulations, members of the Armed Forces described in subsection (c), and the family members of such a member, may accept gifts from non-profit organizations, private parties, and other sources outside the Department of Defense, other than foreign governments and their agents. Such regulations shall apply uniformly to the Army, Navy, Air Force, and Marine Corps, and, to the maximum extent feasible, to the Coast Guard, and shall apply uniformly to the active and reserve components.

(b) AUTHORITY.—A member of the Armed Forces described in subsection (c) may accept gifts as provided in the regulations authorized in subsection (a), notwithstanding section 7353 of title 5, United States Code.

(c) COVERED MEMBERS.—A member of the Armed Forces is described in this subsection in the case of a member who is on active duty and who on or after September 11, 2001, and while on active duty, incurred an injury or illness—

(1) as described in section 1413a(e)(2) of title 10, United States Code; or

(2) in an operation or area designated as a combat operation or a combat zone, respectively, by the Secretary of Defense in accordance with the regulations prescribed under subsection (a).

(d) DEADLINE FOR REGULATIONS.—Regulations under subsection (a) shall be prescribed not later than 90 days after the date of the enactment of this Act.

(e) RETROACTIVE APPLICABILITY OF REGULATIONS.—Regulations under subsection (a) shall, to the extent provided in such regulations, also apply to the acceptance of gifts during the period beginning on September 11, 2001, and ending on the date on which such regulations go into effect.]

[SEC. 8128. Section 106(g) of the Alaska Natural Gas Pipeline Act (15 U.S.C. 720d) is amended by striking "later" and inserting "earlier".]

[SEC. 8129. The present incumbent Attending Physician at the U.S. Capitol shall be continued on active duty until ten years after the enactment of this Act.]

Sec. 8058. Appropriations available to the Department of Defense may be used for the purchase of heavy and light armored vehicles

Sec. 8060. INCREASING TRICARE PROGRAM COST SHARING AMOUNTS.

(a) AUTHORITY.—Beginning in fiscal year 2007 and thereafter, notwithstanding 10 U.S.C. 1086(b) and subject to subsection (b), the Secretary of Defense shall, not later than 90 days after the date of enactment of this Act, promulgate regulations to revise the requirements for payments by beneficiaries under such section, other than medicare-eligible beneficiaries, in order to reflect increases in health care costs. Such requirements, which may include a revised deductible amount and an enrollment fee, need not be uniform for all such beneficiaries. Any such enrollment fee may be a condition of eligibility for health care benefits under chapter 55 of such title.

(b) LIMITATION.—The revisions required by subsection (a) may not result in average annual per person out-of-pocket costs in excess of average annual per person out-of-pocket costs applicable in fiscal year 1996, indexed to fiscal year 2007 and future fiscal years based on the annual rate of change (increase or decrease) in the average premiums under the Federal Employee Health Benefits Program under chapter 89 of title 5, United States Code.

(c) DEFINITIONS.—In this section —

(1) the term “medicare-eligible beneficiary” means a person described in 10 U.S.C. 1086(d); and

(2) the term “out-of-pocket costs” means the portion of the total health care cost (including deductible amounts, enrollment fees, and other cost sharing) of a beneficiary reliant on the civilian sector component of the TRICARE Program that are not covered by such program.
